Barks & Meow's Express!

FUN TRIVIA

- *The only 2 animals that can see behind itself without turning its head are the rabbit and the parrot.
- *The oldest American breed is the American Foxhound. This dates back to 1650!
- *Puppies reach 50 percent of their eventual body weight in their first 4-5 months of life.
- *An adult crow needs 11 ounces of food a day.
- *If a cat is frightened, their hair stands up fairly evenly all over the body; when the cat threatens or is ready to attack, the hair stands up only in a narrow band along the spine and tail.
- *Women end up being responsible for pet care in 75% of all pet-owning households.
- *There's a "meow" in the middle of the word "homeowner."
- *The pupil in a goat's eye is rectangular in shape instead of being round like those of other animals. It is believed that goats have excellent night vision and will often browse at night. The actual color of the goat's eyes is varied with the most common color being yellow or brown.
- *Guinea Pigs are one of the few mammals that can not synthesize their own vitamin C and so it must be added to their diet.
- *Many birds, including doves, parakeets, and lovebirds, enjoy living in pairs for companionship.
- *It takes 4000 flowers for a Bee to make one tablespoon of honey.
- *Not every cat responds to the effects of catnip. If the cat doesn't have a specific gene, it won't react. About 80% of cats DO have the gene and enjoy the effects of catnip, which is purr-fectly safe and non-addictive!
- *Some breeds of chickens can lay colored eggs. The Ameraucana and Araucana can lay eggs of green or blue.
- *The fingerprints of Koala Bears are virtually indistinguishable from those of humans. So much so that they could be confused at a crime scene.
- *Hartsdale, N.Y. is the home to one of the oldest pet cemeteries in the United States. The cemetery was established in 1896 and has more than 12,000 plots.

The Amazon region contains the largest body of fresh water and the largest rain forest in the world. It is home to at least 15,000 documented animal species, 8,000 of which were new to biology when they were discovered. At least 40% of the world's freshwater fish and 25% of the world's bird species reside there.

Giant pandas are on the brink of extinction, with just over 1,000 pandas left in the world. Scientists are hoping to increase the wild panda population to 5,000 by 2025.

PAW-SCOPES

DOGS

Now that the holidays over with, its time to get back on track with normal walks and feeding times! This month your dog will demonstrate the occasional stubborn and strong-willed attitude, but it won't last long. They'll be back on your lap again with lots of hugs & kisses.

CATS

Peace and tranquility has returned and life as CAT knows it is back to relevant normalcy. If there's more than one cat in the family, the oldest feline will not be happy if not given the position as top cat and never forget to say hello when you get home or good bye when you leave.

JOKES

Chickens With Library Cards

A pair of chickens walk up to the circulation desk at a public library and say, "Buk Buk BUK." The librarian decides that the chickens desire three books, so she gives them three books, and the chickens leave shortly thereafter.

Around midday, the two chickens return to the circulation desk quite vexed and say, "Buk Buk BuKKOOK!"

The librarian decides that the chickens desire another three books and gives the books to them. The chickens leave as before.

The two chickens return to the library in the early afternoon, approach the librarian, looking very annoyed and say, "Buk Buk Buk Buk Bukkooook!"

The librarian is now a little suspicious of these chickens. She gives them what they request, and decides to follow them. She followed them out of the library, out of the town, and down to a park. At this point, she hid behind a tree, not wanting to be seen. She saw the two chickens throwing the books at a frog in a pond, to which the frog was saying, "Rrredit....Rrredit....Rrredit...."

HORSE TRIVIA

I've fallen and I can't giddyup!

What does it mean if you find a horseshoe?

Some poor horse is walking around in his socks.

What disease was the horse scared of getting?

Hay fever!

Why did the man name his horse Flattery?

Because it got him nowhere!

What did one horse say to the other horse?

The pace is familiar but I can't remember the mane.

How does a horse from Kentucky greet another horse?

With Southern Horspitality.

HORSEY JOKES

A man was driving into town when his car fell in a big ditch in the middle of the road. A farmer came up and said, "My horse Sebastian can pull you out," the man said ok and the farmer got Sebastian. When Sebastian was hooked up, the farmer said, "Pull Ranger! C'mon Benny! Let's go Delilah!!!!" Then the farmer said, "Pull Sebastian, pull!"

When the car was out of the ditch, the man said, "I have a question, why did you say the wrong name three times?" And the farmer said, "Because Sebastian is blind, if he knew the other horses weren't pulling, he wouldn't even try..."

GUINNESS BOOK OF WORLD RECORDS

Longest Ears on a Living Dog

A Black and Tan Coonhound named 'Harbor', aged 8, from Boulder, Colorado, USA, has earned a spot in the upcoming Guinness World Records 2012 Edition for having the Longest Ears on a Living Dog.

Owned by Jennifer Wert, Harbor's left and right ears measure 12.25 inches and 13.5 inches respectively. As a puppy Harbor would struggle with his colossal ears; frequently causing him to trip over them and roll down stairs.

Now at the age of 8 the purebred has grown into his ears (only occasionally tripping over!), the only trouble being caused by the attention he receives from members of the public.

Jennifer explains: "Cars will literally stop in the street to take a closer look and get a picture. Often strangers will tug his ears which he really doesn't enjoy!"

Contrary to popular belief, this particular breed's long ears are for smelling and not enhanced hearing. When moving around Harbor's ears will fall into a rhythm that helps sweep scents into his nose.

Jennifer goes on to say: "Most days I forget how oddly long his ears are. He's a phenomenon in the world and he creates smiles wherever we go."

Harbor takes the new title from Tigger (13.5 inch ears), a bloodhound from Illinois, who sadly passed away of old age two years ago.

Harbor's ear-span is greater than the height of the world's shortest man - Junrey Balawing (PHL) is 23.5 in!

Harbor's ear-span is so wide, you could fit the world's shortest dog (Brandy (US), 6in long) comfortably on each of Harbor's ear twice!
